

May 6th Motion

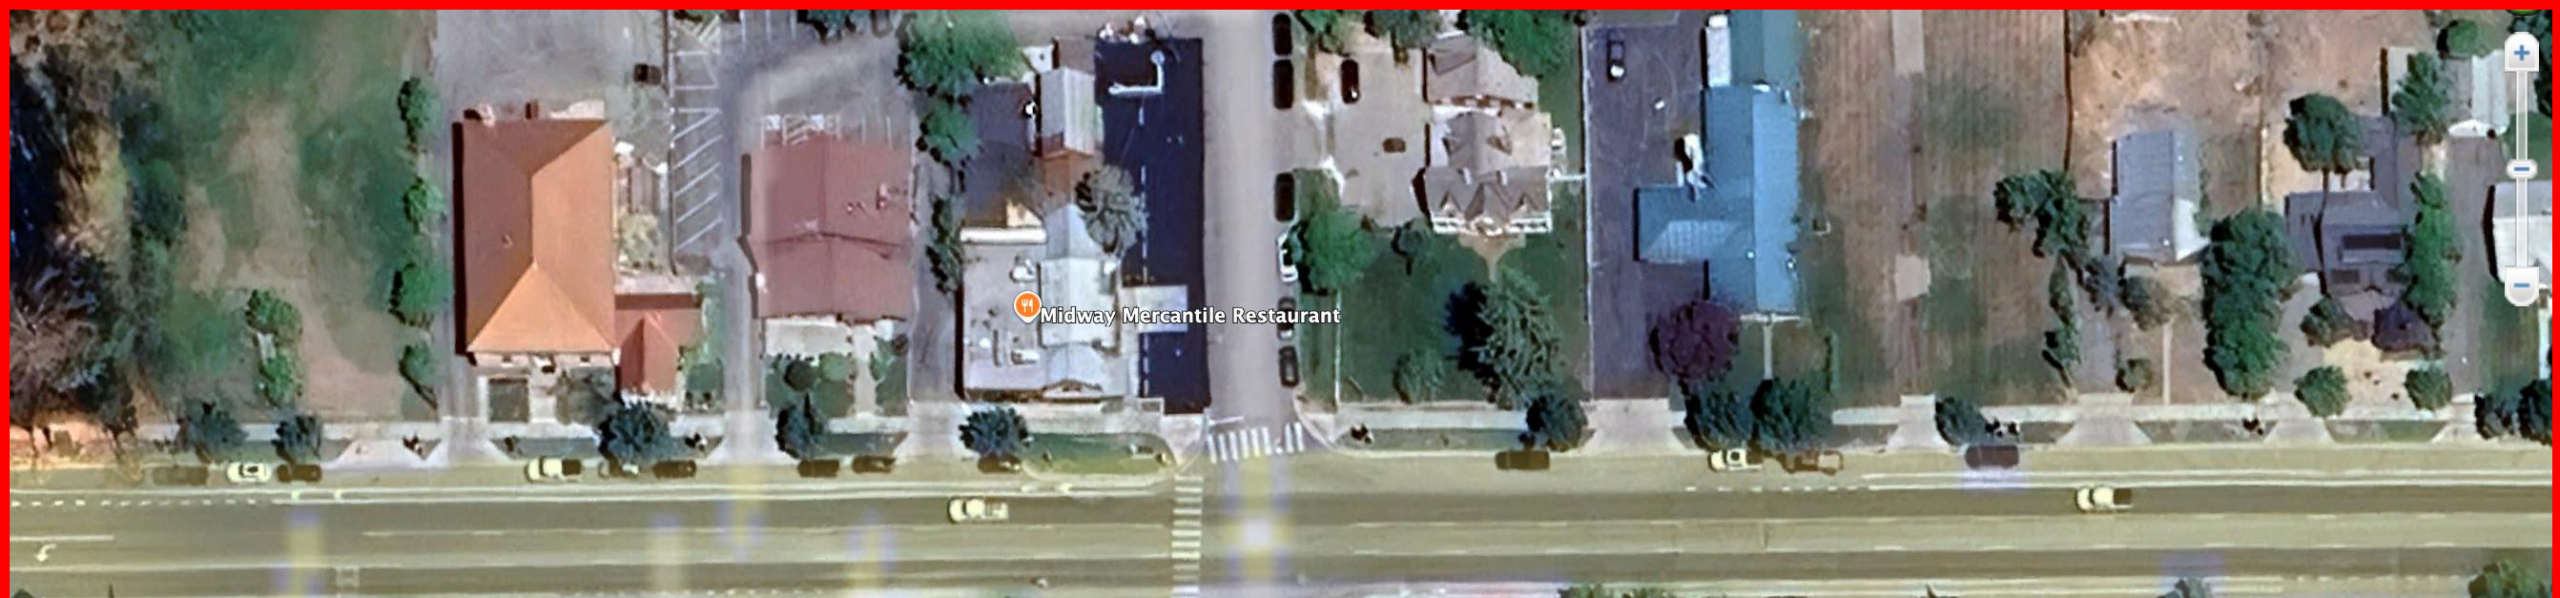

"Council Member Drury moved to approve leasing 20 parking stalls around the Town Square, which was north of Café Galleria, and **not** approve leasing any parking south of the business. Council Member Drury further moved that the lease fee would be based on the City's fee schedule as amended from time to time"

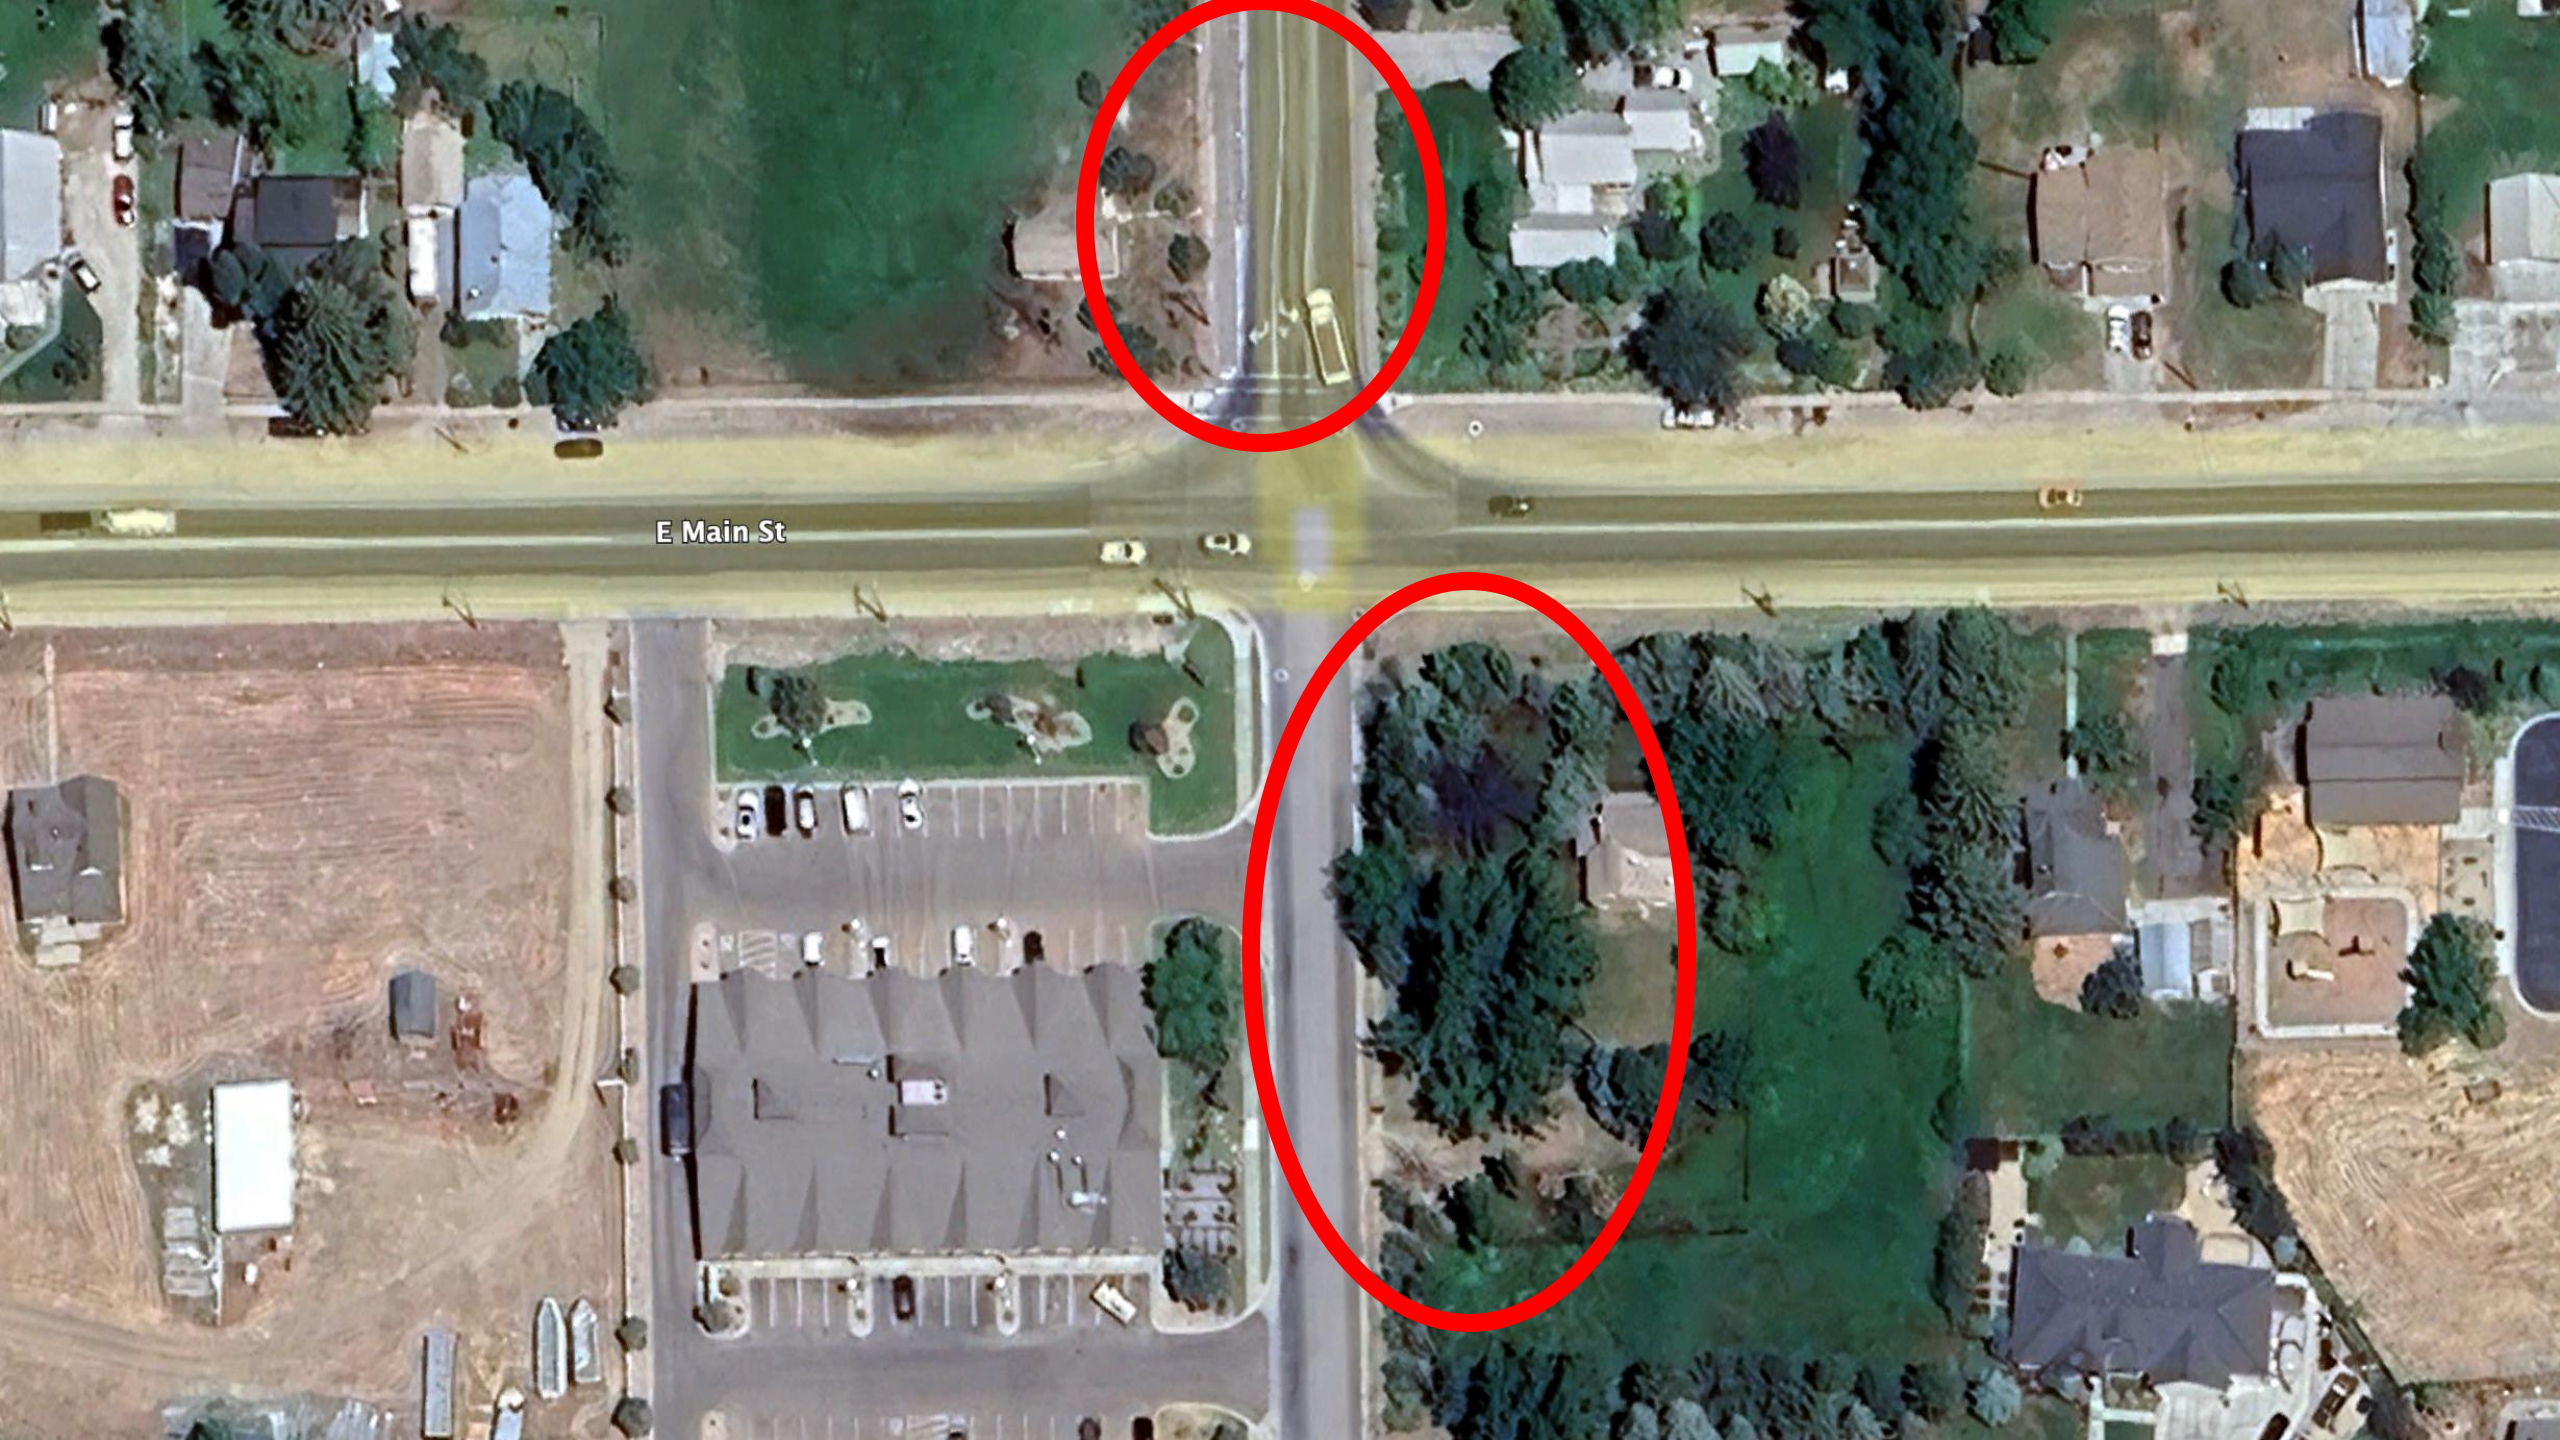

W Main St

Café Galleria = Midway, Utah

E Main St

Clarified Motion

Findings

- From the general plan - As older homes transition into businesses along Main Street, preserve the green areas around these buildings by not overbuilding parking.
- Creating parking in the City right of way adjacent to existing residential and agricultural uses negatively impacts those properties.
- Café Galleria is a historic structure that is already using and counting parking in the City right of way toward its requirements

Motion

I would like to clarify my motion that we approve leasing 20 parking stalls around the Town Square, which are North of Café Galleria, and **not** approve leasing or **creating** any parking south of the business. The lease fee will be based on the City's fee schedule as amended from time to time. Any parking spots South of Café Galleria that have been created by the City will be removed and business owners and signage will direct parking to the leased spots on the North of Main Street.
