

Memo

Date: April 21, 2026
To: Midway City Council
From: Michael Henke, Midway Planning Director
Re: Grant B. Kohler Trust Annexation / Further Consideration

The City has received an annexation petition from the Grant B. Kohler Trust and Chad Himmer for a potential annexation of 2.23 acres. The first step in the annexation process for the City Council is to determine that the annexation petition provides the information and representations required by the City Code. If the City Council determines that the application is complete, then the petition may be accepted for further consideration.

Per the City Code, the intent of the annexation code is the following:

It is the intent of this Chapter to ensure that property annexed to the City will contribute to the attractiveness of the community and will enhance the rural, resort image which is critical to the economic viability of the community, and that the potential fiscal effect of an annexation does not impose an unreasonable burden upon City resources and tax base.

The general requirements that should be considered, as listed in the annexation code, include the following:

- Logical Extension of City Required
 - Property under consideration for annexation must be considered a logical extension of the City boundaries.
- Consistent with General Plan and the Municipal Code
 - Annexation of property to the City must be consistent with the intent and purpose of the annexation code and the Midway City General Plan, in addition to the Master Plan for water, sewer, and roads.

- Efficiency of Proposal Required
 - Every annexation shall include the greatest amount of contiguous property area, which is also contiguous to the City's municipal boundaries.

- Individual Small Parcel Proposals Discouraged
 - Piecemeal annexation of individual small properties shall be discouraged if larger contiguous parcels are available for annexation within a reasonable time frame in order to avoid repetitious annexations.

- Islands, Peninsulas, and Irregular Boundaries of Annexation Areas Discouraged
 - Islands of county jurisdiction shall not be left or created as a result of the annexation and peninsulas and irregular boundaries shall be strongly discouraged.

- City Must be Able to Serve Area at Consistent Level of Service
 - In addition to services provided by existing districts, such as sewer, fire protection, and public schools, the following urban level services, consistent with those normally provided in the rest of the incorporated boundaries will be provided to annexed areas:
 - Law enforcement protection.
 - Snow removal on public streets, subject to standard City snow removal policies.
 - Maintenance of existing public streets, provided that such streets have been constructed or reconstructed to City street standards or are acceptable to the City Engineer and City Council.
 - Planning, zoning, and municipal code enforcement.
 - Access to municipal sponsored parks and recreational activities and cultural events and facilities.
 - Water and sewage waste disposal services as the area is developed. Existing facilities for water treatment, storage and delivery, and/or for sewage removal and treatment, may be inadequate to provide water and sewer services to a proposed annexation area. The City shall determine the timing of and necessary capacity for the extension of water and sewer service to a proposed annexation area. New development in an annexation area shall pay the cost of improvements necessary for the extension and connection of new developments to City water and sewer lines and systems, as well as contribute to the cost of additional capital improvements, including but not limited to, storage and distribution facilities as necessary for safe, reliable, and efficient water flows and waste removal.

- Annexations to be Scrutinized
 - Before considering requests for annexation, the City shall carefully analyze the impacts of annexation of an area, taking into consideration whether the area will create negative impacts on the City and considering whether the City can economically provide services to the annexed area. Community issues such as location and adequacy of schools and community facilities, traffic, fire protection, particularly in wildfire/wild land interface areas, usable open space and recreation

areas, protection of sensitive lands, conservation of natural resource, protection of view corridors, protection and preservation of historic resources, affordable housing, balance of housing types and ownership, adequate water and sewer capacity to serve the future needs of the proposed annexation area shall be considered.

- Annexation for Preservation Allowed
 - Situations may exist where it is in the public interest to preserve certain lands from development in flood plains, where geological hazards exist, where slopes are severe, or where the need for preservation of community open space and/or agricultural lands is consistent with the General Plan. In such circumstances, annexations may occur as a means of retaining those lands in a natural state.

The property in question consists of 2.23 acres which include Wasatch County Parcel IDs OWC-0298-3, OWC-0298-2, & OWC 0536-0 located at approximately 970 River Road. There is currently one dwelling on parcel OWC-0298-2. The property petitioned for annexation is in the Midway Growth Boundary, lies contiguous to the corporate limits of Midway, and will not create an incorporated peninsula, so annexation of the property is allowed by State Code.

The petition contains two sponsors, the contact sponsor is Grant B Kohler Trust and the other sponsor is Chad Himmer. The applicants represent in the petition that they own all of the petitioned property except for 0.17 acres that is owned by Midway which is part of the River Road right-of-way.

The applicant has submitted a concept plan showing intent to subdivide the property in the petitioned annexation into two lots: Lot 1, comprising 1.06 acres, on the western half of the property, and Lot 2, comprising 1.0 acres, on the eastern half of the property.

Some items to consider with this proposal:

- The City will gain some control over future development of the property through annexation conditions and through the land use code
- Any future dwellings or structures will need to comply with Midway setbacks which are greater than the setbacks required by Wasatch County
- One dwelling in the proposed annexation is currently connected to the City's culinary water system
- The concept plan calls for two lots. Lot 1, comprising 1.06 acres, on the western half of the property, and Lot 2, comprising 1.0 acres, on the eastern half of the property
- The applicant will have to acquire/provide the necessary water and dedicate the rights to the City before a subdivision plat is recorded.
- It appears the property could be annexed and comply with state code

- The proposal is a legislative action

Staff has reviewed the application and has determined that it does comply with the general requirements of the annexation code and could be further considered by the City Council.

POSSIBLE FINDINGS:

- The proposed annexation does comply with the intent of the annexation code
- The application is complete to consider further consideration
- Further consideration of the petition by the City Council does not guarantee the property will be approved for annexation by the City Council

ALTERNATIVE ACTIONS:

1. Approval of further consideration. This action can be taken if the City Council finds that the application is complete and meets the intent of the annexation code.
 - a. Accept staff report
 - b. List accepted findings
2. Continuance. This action can be taken if the City Council would like to continue studying further consideration of the proposal.
 - a. Accept staff report
 - b. List accepted findings
 - c. Reasons for continuance
 - i. Unresolved issues that must be addressed
 - d. Date when the item will be heard again
3. Denial of further consideration. This action can be taken if the City Council finds that the application is not complete or does not comply with the intent of the annexation code.
 - a. Accept staff report
 - b. List accepted findings
 - c. Reasons for denial

3. That up to five of the signers of this petition are designated as sponsors, one of whom is designated as the contact sponsor, with the name and mailing address of each sponsor indicated as follows:

<u>Contact Sponsor</u>	<u>Mailing Address</u>
<u>Grant B Kohler Trust</u>	<u>970 River Road, Midway, Utah 84049</u>

<u>Sponsor</u>	<u>Mailing Address</u>
<u>Chad Himmer</u>	<u>970 River Road, Midway, Utah 84049</u>
<u> </u>	<u> </u>
<u> </u>	<u> </u>
<u> </u>	<u> </u>

4. That this petition is accompanied by the following documents:

- a. An accurate and recordable plat map, prepared by a licensed surveyor, of the area proposed for annexation.
- b. A copy of the notice of intent sent to affected entities.
- c. A list of the affected entities to which notice was sent.
- d. A representation as to the anticipated timetable for development, if applicable, for the property being annexed.
- e. If the proposed area is intended for development, a complete copy of the development concept plan which was filed with the City Planner.
- f. Depending on the scope and intensity of the proposed development of the annexation area and the anticipated impact on adjacent lands, a review and analysis of the surrounding property (Municipal Code 9.05.050).
- g. A full disclosure statement of all water owned or historically utilized on the property to be annexed.
- h. A sensitive lands analysis of the full area being considered for annexation.
- i. Such other information as may be required by the City Planner to enable the staff to prepare an annexation impact report.

5. A copy of this petition and the accompanying map was also delivered or mailed to the Wasatch County Clerk and the chair of the Midway City Planning Commission.

6. That the petitioner(s) request the property, if annexed, be zoned RA-1-43.

7. That this petition contains the following signatures of the owners of private real property that:

- a. Covers a majority of the private land area within the area proposed for annexation.
- b. Is equal in market value to at least 1/3 of the market value of all private real property within the area proposed for annexation.

8. If the property is owned by a public entity other than the federal government, the signature of the owner of all the publicly owned property within the area proposed for annexation.
9. The following fees must be paid when the petition is submitted:

Five (5) acres or less

\$1,000 application fee (Non-refundable)

\$100/acre (\$1,000 minimum and \$10,000 maximum). * \$1,000 minimum review deposit

More than five (5) acres

\$200 per acre application fee (Non-refundable)

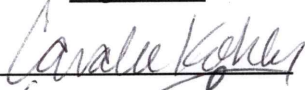

\$100/acre (\$1,000 minimum and \$10,000 maximum). *

* If the amount of the deposit reaches $\frac{1}{4}$ of the initial amount then the annexation process is put on hold. The hold is in place until the amount is increased to the initial amount of the deposit, or a lesser amount is determined. The lesser amount is determined by staff based on how much of the process has been completed. All fees must be paid prior to the recording of the annexation plat map. Any deposit amount remaining, at the end of the annexation process, may be refunded.

Note: A fee for future parks and recreation infrastructure will be negotiated during the annexation approval process and must be paid prior to the recording of the annexation plat map.

The signature page follows.

Notice: There will be no public election on the annexation proposed by this petition because Utah law does not provide for an annexation to be approved by voters at a public election. If you sign this petition and later decide that you do not support the petition, you may withdraw your signature by submitting a signed, written withdrawal with the recorder or clerk of Midway City. If you choose to withdraw your signature, you shall do so no later than 30 days after Midway City receives notice that the petition has been certified.

<u>Petitioner</u>	<u>Signature</u>	<u>Acres</u>	<u>Market Value</u>	<u>Serial Number</u>
Grant B Kohler Tr.		0.58	\$116,000	OWC-0298-3-026-03
Chad Himmer		1.00	\$530,075	OWC-0298-2-026-03
Midway City		0.17	\$0	OMI-0563-0-26-034
_____	_____	_____	_____	_____

Property Acreage Note:

Acreage listed in this table for the privately owned parcels (1.58 acres) is per the Wasatch County Records Office. The acreage for these parcels per the property survey is (2.06 acres). The survey found that 0.17 acres of the River Road right-of-way is in Wasatch County. This area is mostly in the River Road and Burgi Lane roundabout.

Attachment G

Impacts to Adjacent Land

The property to the east (Mike Kohler), south (Russell Kohler), west (Chad Himmer) and the north (River Road and Dutch Fields) have all been developed and are all properties that were part of the original Kohler family farm. The proposed subdivision proposes one (1) addition home in this area.

Access for the new home will be from an existing driveway. No new impacts or driveways are proposed to River River.

Utilities needed for the subdivision already exist in the area.

Attachment H – Water Rights

A portion of the following water right will be used for the subdivision proposed within the annexation.

Attachment I Sensitive Lands

FEMA 100 Year Floodplain	The property is not within the boundary of the 100 year floodplain. Please see the attached FEMA Firmette for additional information.
Wetlands	The National Wetlands Inventory Map does not show any wetlands within the Grant B Kohler Trust annexation. Please see the attached map for additional information.
Hillsides and Steep Slopes	The property does not contain any hillsides or slopes over 25%.
Ridgelines and Benches	The property does not contain any ridgelines or benches.
Springs and Wells	The property does not contain any springs or wells. The House and Field Spring is located to the east of the annexation on the Kohler Farm.
Geological Features	There are no geological features such as hot pots or rock outcroppings on the property. The Utah Geological Survey shows no faults within the annexation. The near hazardous fault is approximately 6 miles away in the Jordanelle area as shown on the attached map.
Wildlife Habitat	The property within the annexation does not contain any critical wildlife habitat.
