

Memo

Date: January 27, 2026
To: Mayor, City Council and Staff
Cc: File
From: Brad Wilson, City Recorder
RE: Future Status of the CDRA

The Midway City Community Development and Renewal Agency (CDRA) concluded its responsibilities to the grocery store located at 42 East Main Street. It was also determined that it does not have any responsibilities or obligations related to the Wasatch Mountain State Park or any other entity.

The question was asked if the CDRA should be dissolved. I spoke with the Governor's Office of Economic Development which oversees redevelopment agencies. They indicated that State Senator Wayne Harper is considering some significant changes to RDA regulations. They recommended that we do not take any immediate action and continue to discuss options with them. I will coordinate these discussions with Mayor Simons and keep you informed.

Please contact me if you have any questions.
