Midway Matters

October 6 6 PM	Midway City Council Regular Meeting
October 20 6 PM	Midway City Council Regular Meeting
October 21 6 PM	Planning Commission Meeting

A heartfelt thank you to the many volunteers who shared their time to make this year's Swiss Days a success. Your hard work and dedication help keep this special Midway tradition going strong year after year.

The Mayor's Corner

With another incredible Swiss Days behind us and the quiet beauty of autumn settling over the town square, October gives us a chance to catch our breath and reflect on what makes Midway so special. Our small-town Swiss character and sense of community are on full display this time of year, and I want to extend a sincere thank you to all the volunteers and city staff who keep our streets beautiful and our traditions alive.

As we move deeper into fall, I want to remind everyone that municipal deadlines and county voting schedules are approaching. Ballots will be hitting mailboxes soon. You can safely return your ballot by mail or utilize the official ballot drop located outside on the northwest corner of the Midway City Office Building (75 N. 100 W.) next to the drive-up window. Your voice is a critical part of maintaining the careful growth and open space planning that keeps our valley thriving.

Enjoy the beautiful autumn weather, check in on your neighbors, and thank you for making Midway such a wonderful place to call home.

-Mayor Craig Simons

Midway residents: our Utah Wellbeing Survey results are in!

Celebrating 79 Years of Midway Swiss Days

Another Swiss Days is in the books! Our 79th celebration brought thousands of residents and visitors together for two days of music, food, the traditional parade, and unique shopping on our Town Square. What makes Swiss Days especially meaningful is the incredible number of people from our community who volunteer to make it happen. Planning begins in January, and hundreds of our community members give their time throughout the year. From setting up to preparing and serving food, baking, helping with the parade, welcoming visitors, and cleaning up after the weekend, Swiss Days truly is a community effort.

Much of the work happens behind the scenes, long before the first visitor arrives and after the last booth closes. Generations of Midway residents have helped carry this tradition forward, working side by side to host an event that belongs to all of us. Swiss Days is a celebration of our Swiss heritage, traditions, and the community spirit that makes Midway special. Thank you to everyone who volunteered, attended, and welcomed visitors to our town. During Swiss Days, our Swiss heritage shines brightly, and so does the strength of our community

Meet Our Officers

Over the next few months, we're taking a moment to introduce the officers who serve the Midway community.

Hello! My name is Officer Kenzi Bishop, and I am currently a patrol officer with the Heber City Police Department. I have been with the Heber City Police Department for a little over a year, after previously serving with the Sheriff's Office.

Outside of work, I enjoy spending time outdoors and staying active through activities such as hiking, hunting, and going to the gym. I also enjoy traveling and have had the opportunity to visit several countries outside of North America.

My journey into law enforcement began after graduating from EMT school, when I found myself deciding between a career in Fire/EMS or law enforcement. I attended the UVU Police Academy in 2023, and within the first couple of weeks, I knew I had made the right choice. From working for the county to now serving with the city, I have come to truly appreciate and enjoy serving the citizens of Midway and Heber City. I am grateful for the opportunity to serve this community and look forward to continuing to build relationships and make a positive impact through my career.

Pardon Our Progress-

River Rd. and Main St. Traffic Signal Update from UDOT

Final Touches Underway in Midway

Crews are almost completely finished with the project! Over the next few weeks, crews will complete landscape restoration and address any other restoration items as needed. The traffic light will be monitored and adjusted for timing as necessary. Crews will be completely finished up in the area by the end of the month.

A huge shout-out to Midway City and everyone in the community who has been patient and cooperative throughout the project. We truly appreciate your understanding as crews have worked hard to get this project completed!

Community Through Connection

A monthly feature celebrating the small things that make Midway stronger.

Strong communities begin with simple connections.

Knowing our neighbors helps create a stronger sense of belonging in the place we call home. Research from Pew Research Center found that people who know most or all of their neighbors are much more likely to feel connected to their community.

Building those relationships doesn't have to be complicated. It's as simple as a wave, a conversation at the mailbox, or lending a helping hand.

This Month's Connection Challenge:

Get to know a neighbor a little better. Say hello to someone new, or check in on someone you haven't talked with in a while.
