Andrew Osborne – City Council
Michael Henke – Community
Development Director
Melissa Jones – Community
Development Assistant

Absent

Travis Nokes
Tim Dougherty

6:00 P.M. Regular Meeting

Call to Order

Invocation by Commissioner Lineback; Pledge of Allegiance

The Planning Commission Chair adjusted the agenda order, moving Item 2 (Kohler Farm Subdivision) before Item 1 (Approval of Meeting Minutes), followed by the Liaison Report.

Item 2: Preliminary/Final Approval Kohler Farm Small Scale Subdivision

Review and consider preliminary/final approval of an application submitted by Berg Engineering on behalf of the Grant B. Kohler Trust to subdivide 2.07 acres into two lots. The recently annexed property is located at 970 N. River Road in the RA-1-43 zone.

Discussion:

- The existing driveway from River Road will provide access to both lots and neighboring properties to the east. Access easements will be included on the subdivision plat to preserve access.
- City Council established the 85-foot setback on Lot 2 during the annexation process to maintain an open entryway into town and align with the setbacks of neighboring homes.
- Both lots must connect to sewer, culinary water, and secondary irrigation systems. Staff

explained that septic system acreage requirements generally necessitate sewer connections when subdividing property.

- Paul Berg, the applicant's representative, questioned whether the existing pressurized irrigation line was privately owned or operated by Midway Irrigation Company. No changes to the proposed findings were requested.

Findings

- Both lots comply with the requirements of the RA-1-43 zone.
- The proposed subdivision complies with the approved annexation agreement.
- No new direct access from River Road is permitted. Both lots must use the existing River Road access crossing Lot 1.
- An 85-foot setback from River Road is required for all structures on Lot 2.

Public Comment:

A public hearing was opened and closed with no public comments.

Motion by Commissioner Farrell: "I'll make the motion we approve the Kohler Farm subdivision, as presented, with all the conditions and findings of the staff."

Second: Commissioner Probst

Ayes: Commissioners Farrell, Lineback, Probst, Facer, Winegar, Knight
